GEOPHYSICS DEPARTMENT

STUDENT INFORMATION
Student Name _______________________________
Empl ID ________________________________

Students that select the alternative path to complete coursework breadth instead of the 2nd project must complete this petition. Advisor and Director of Graduate Studies approval is required. Additional requirements for this option are:

- Must include 15 units of graded (or Instructor-mandated S/NC) lecture courses at the 200 level or higher.
- The courses chosen must be relevant to study in Geophysics, and be approved as such by the advisor and Director of Graduate Studies.
- At least 6 units must be from the Department of Geophysics. The remaining courses may choose from any department.
- Student must state the classes to be taken, and explain how these classes will provide breadth or a second focus area to the student's course of study and how they are important to the student's career goals.
- The courses cannot be used to meet any other degree requirements at Stanford.
- No transfer credit may be used to meet this requirement.
- The proposed set of anticipated courses must be evaluated by the student’s committee at the first annual review, and approved again at the time of the qualifying exam.
- Students cannot be advanced to TGR status or receive the PhD degree until completion of the 15 additional units.
