September 2016

To all of you, our new graduate students - Welcome to the Department of Geophysics.

The handbook you're receiving today is our attempt to make your transition period as easy as possible. I'm sure there will be some confusion in your first few weeks here, getting used to a new department, a new campus, a new stage in your life. The secret to success - starting Day 1 - is to ask questions! The faculty, staff and students all want to help, so please ask us if there is anything that's puzzling or confusing you. Once you're settled, I'm hoping that the following years will be rewarding, inspiring, and one of the best times of your life.

The School of Earth, Energy, and Environmental Sciences (SE3) covers enormous breadth in both teaching and research. Part of the challenge, and fun, of your first year is discovering all that is going on around you, in the Mitchell Building, in Green, in "Geo-corner" (the building on the corner of the original Stanford Quadrangle), and in Y2E2, the newest Earth Sciences building. There are two seminar courses that you will attend this autumn quarter that will help: GP201 - Frontiers of Geophysical Research and EARTH 300 - Earth Sciences Seminar. The purpose of GP201, a series of seminar style lectures, is to introduce new students to current research carried out by Geophysics students, faculty and research staff. EARTH 300 is similar, but for the whole school, with lectures by faculty members from all departments and programs within SE3. It also covers more general aspects of research and learning. There is, of course, the rest of Stanford University too. Be sure to leave the Mitchell Building and explore what Stanford has to offer.

We're delighted that you decided to join us. I look forward to seeing all of you in September.

Howard Zebker
Chair, Department of Geophysics
Department Staff

Claudia Baroni, SCITS/NGI Program Manager: Room 327, 723-5002
Claudia is Responsible for all administrative and financial tasks related to the Stanford Center for Induced and Triggered Seismicity (SCITS) and the Natural Gas Initiative (NGI).

Csilla Csaplár, Department Manager: Room 357, 498-6877
Csilla is the department manager. She is responsible for the daily operations of the department, including budget development and management, cost analysis, staffing, personnel management, and space and facilities planning.

Rachael Madison, Student Services Manager: Room 351, 724-3293
Rachael manages and coordinates all aspects of student services in the department including: admissions, degree progress, advising, student funding, commencement, postdoc appointments, and course scheduling.

Rosalyn McCambridge, Research Administrator: Room 331, 725-4562
Ros is responsible for the administrative and financial management of research grants and contracts for Dustin Schroeder, Tiziana Vanorio, Jenny Suckale, and Howard Zebker.

Michelle Brunner, Department Administrator: 3rd Floor Lobby 497-3498
Michelle is responsible for managing the departmental needs including: seminar/event coordinator, Pcard and Tcard transactions, processing PO’s and reimbursements, STAR, maintain TWIG (This Week in Geophysics), maintain key inventory, blanket maintenance requests, department roster/calendar and Mitchell building room scheduling.

Margaret Milia, Research Administrator: Room 323, 723-4890
Margaret is a Sponsored Projects Administrator. She is responsible for the financial management of research grants and contracts for Eric Dunham, Paul Segall, Gary Mavko, Tapan Mukerji, and Greg Beroza. She also manages several department accounts.

Deb Michael, Research Administrator: Room 329, 723-4746
Deb is responsible for the financial management of research grants and contracts for Jerry Harris, Rosemary Knight, Simon Klemperer, and Norm Sleep.

Liliane Pereira, Administrative Associate: Room, 369, 723-1703
Liliane provides administrative support for SCITS, NGI, and the SEP group.

Jared Gregory, Administrative Associate: Room, 369, 723-0839
Jared manages administrative and logistical aspects of the Rock Physics Program in the Department of Geophysics.

Vanessa Azevedo, Research Assistant: Room 349, 723-1568
Vanessa is the Research Assistant for the Zoback Stress and Crustal Mechanics group. She is responsible for assisting Professor Zoback’s financial accounts and his students with their travel, supplies, or other administrative needs.
The Basics

COMPUTERS

AXESS
Use AXESS to submit your study lists, adjust your tuition units, change your address, request transcripts, and see public information such as housing resources. Be sure to have your current local address and e-mail address updated at all times in AXESS.  https://axess.stanford.edu/

University Student ID
Obtain your ID card at the Student Services Center:  http://www.stanford.edu/group/studentservicescenter/

Computer Policies
School computer resources are provided to support teaching, learning, and unsponsored research. No user may monopolize resources or use them for personal financial benefit. http://pangea.stanford.edu/computerinfo/newusers/policy.html

Connect to the Network
Connect your personal computer and/or your Stanford-owned devices. Register your computer and secure it against hackers before connecting to the network. http://pangea.stanford.edu/computerinfo/newusers/setup.html

Online Directory Information
Ensure your information is correct in both the Stanford and the School of Earth Sciences directories, and your desired privacy settings are activated. https://earth.stanford.edu/geophysics/department-resources

E-mail
Check your email at webmail.stanford.edu. Your email account is based on your SUNetID (e.g. yourname@stanford.edu). Messages from the department and University will be sent there only. You will not receive Stanford emails at other email addresses (e.g. Gmail etc.), unless you forward them.

Computer System Information

TRANSPORTATION

Parking
Parking & Transportation on Bonair Siding has parking permits, public transportation maps/schedules and bike route maps. If you live off-campus, the University Clean Air Credits program will pay you to not buy a parking permit. CalTrain runs between San Francisco and San Jose. The closest CalTrain stations are Palo Alto and California Avenue stations. http://transportation.stanford.edu/

Bicycling
It is the law that you register your bike. Bikes are allowed on CalTrain. There is a local bike coalition list you can subscribe to by emailing bike-coalition@lists then entering “subscribe” in the body of the message. http://facilities.stanford.edu/transportation/alt_transportation/BikingAtStanford.shtml

Marguerite Shuttle
Marguerite is Stanford’s free shuttle bus system that travels around campus, to the train station, and downtown Palo Alto. http://transportation.stanford.edu/marguerite/
BANKING
There is a Wells Fargo and a Stanford Federal Credit Union (SFCU) office located on the second floor of Tresidder. ATMs for Wells Fargo, SFCU, and Bank of America are also located on the second floor of Tresidder and a generic ATM is located in the Stanford Bookstore.

OFFICES/BUILDING INFORMATION

Student Offices
Students are assigned an office space in the Mitchell Building. Obtain your keys from the Department Administrator for the outside doors of the Mitchell Building, and your office.

Mail
Student mailboxes are on the third floor of the Mitchell Building. Do not use the department as a mailing address for personal items such as insurance forms, credit cards, etc. There is a post office next to the bookstore for personal mailing transactions, or you can leave stamped mail in the department mailroom.

Photocopying
A photocopy machine is on the third floor of Mitchell. You will need a code (available from your advisor) to operate the machine. Coin operated copiers are all over campus and in Branner Library. You can also buy copy cards to operate these machines.

Telephones
Telephones are in each student office and in some of the labs. To call other phones on the University system (prefixes 723, 725, 721, and 497) dial the last five numbers, such as 3-8314 for 723-8314. Off-campus numbers can be reached by first dialing a "9", and then the entire 7 digit number. For international calls for Department business, see your research group administrator as the access codes are assigned to a particular project and the call will be billed to that project's account.

Kitchen
There is a kitchen on the third floor with water, coffee machine and a microwave for department use. Student refrigerators are located on the fourth floor. Please remove your old food from the refrigerator.

Scheduling Rooms
To schedule Geophysics classrooms and conference rooms in Mitchell, please use the online reservation system. https://earth.stanford.edu/geophysics/geophysics-room-reservation

Purchasing
To purchase supplies for your experiments or lab see your research supervisor and group administrator. It is important to have permission to use an account for all purchases. The research group administrator needs to account for all funds spent and will help you with the ordering process.

STUDENT RESOURCES

GSAC
Three students are elected each year to represent Geophysics on the Graduate Student Advisory Committee (GSAC). GSAC reps communicate with the department and students about graduate student issues, and they organize student events.

Mentors
Incoming students are assigned a mentor their first year. Use your mentor to help you settle into the department and learn your way around.

This Week in Geophysics (TWIG)
Look for the flyer in the Mitchell elevator and walls for Department topics and seminars.

"Friday Beer"
The student chapter of the SPE sponsors “Friday Beer” in the Arco Courtyard every Friday at 4:30 p.m. Come chat with other students, faculty and staff in an informal and fun atmosphere. You do not need to drink beer. "Equally Attractive Non-alcoholic Beverages" are always available.

Bechtel International Center
The Bechtel International Center runs an Orientation Program for international students. We strongly encourage you to attend this and their tax information workshops. They process visa forms and have the most up-to-date work information, so be sure you become familiar with their services.

ACADEMICS

The Honor Code
Stanford has the distinction of maintaining its academic operations based on the Honor Code. It is expected that all aspects of student conduct will be in accordance with the Fundamental Standard and the Honor Code described in the Stanford University Bulletin. By registering at Stanford, students indicate that they accept the provisions of the Honor Code. In particular, it is expected that students will be scrupulously careful neither to give nor to receive aid in any examination or homework.

http://studentaffairs.stanford.edu/judicialaffairs/policy/honor-code

Study List
You must submit a quarterly study list in AXESS by the deadlines in the academic calendar or you may accrue fees. You must enroll in 8-10 units approved by your adviser. The study list informs the University what courses you are taking each quarter.

Office of Accessible Education (OAE)
Students with documented disabilities who need an academic accommodation must initiate the request with the Student Disability Resource Center (SDRC). SDRC staff will evaluate the request, recommend reasonable accommodations, and prepare an Accommodation Letter for faculty dated in the current quarter in which the request is being made. Students should contact the SDRC as soon as possible since timely notice is needed to coordinate accommodations. The OAE is located at 563 Salvatierra Walk (phone: 723-1066, 723-1067 TTY).

Units Required
All supported students must register for 8-10 units per quarter including Summer quarter, if you remain on campus engaged in your research. Tuition is paid for by the Department and the units required are related to visa requirements and provisions of grant and contract funding. Students can register TGR with reduced tuition after they have completed their course work with no incompletes, met the residency requirements as listed in the Bulletin and established a reading committee.

Thursday Department Seminar
All graduate students are expected to attend the Department seminar held every Thursday afternoon in rooms 350 and 372. Speakers present on a variety of topics which can be a good source of inspiration.

GEOPHYS 385, Research Seminar
Each research group has a weekly meeting to discuss research projects related to their specialty. Students are expected to attend these meetings.

GEOPHY 201, Frontiers of Geophysical Research at Stanford
During autumn quarter the department seminar becomes GEOPHYS 201 and takes the form of faculty presentations. It is required for all incoming students. It’s a great way to get to know the faculty.

EARTH 300, School of Earth, Energy, and Environmental Sciences Seminar
Earth Sciences seminar is required of all first-year SE3 graduate students.

Master’s Degree Milestones
Masters students are required to complete at least 45 units:
http://www.stanford.edu/dept/registrar/bulletin/5058.htm

1. Fill out the Graduate Petition Authorization in AXESS to add the Master’s degree to your program
2. Submit Master’s Program Proposal:
3. Submit signed Master’s Oral Presentation form
4. Apply to graduate in AXESS

**PhD Degree Milestones**
PhD students are required to complete at least 135 units of coursework and research units:
http://www.stanford.edu/dept/registrar/bulletin/5059.htm

**Year 1**
- Consult your advisor for courses to take and get started on your research

**Year 2**
- Attend the required SE3 Teaching Assistant Training in the beginning of autumn quarter
- Complete annual review meeting autumn quarter
- Take qualifying examination spring quarter
- Complete Application to PhD Candidacy form after you pass quals

**Years 3, 4, 5**
- Continue annual review meeting during spring quarters
- File TGR once you reach 135 units of completed course work
- Complete Reading Committee form:
- Complete TGR form:
- University Oral Examination:
- Email your defense date, room number and thesis title to the Student Services Manager.
- Apply to graduate in Axess. If you are staying an extra quarter to edit your thesis, turn in the Petition for Graduation Quarter form. Your graduation quarter will be the quarter you stayed.
- Submit Commencement Walkthrough form
- Post flyers in the SES building, TWIG and SE3 online calendar.
- Turn in Certification of Thesis Draft form two weeks before your defense date.
- Turn in University Oral Examination Schedule after your defense chair signs on your defense day.
- Submit your dissertation electronically with the Registrar’s Office:
  http://studentaffairs.stanford.edu/registrar/students/dissertation-thesis
- Update your mailing address in Axess.
- Email your address to the Department Administrator.

More information on Geophysics degree milestones can be found on the Geophysics website:
https://earth.stanford.edu/geophysics/academic-resources
FINANCIALS

Employment Forms
Fill out ALL forms completely. Stanford’s online forms may include: Employment Eligibility Verification Form 1-9, Patent Agreement, SU-32 Tax form, and other tax forms if your country has a tax treaty with the U.S. Payroll will e-mail if you are eligible for tax treaty information. The I-9 form establishes eligibility to work in the U.S. Be sure to give copies of your I-9 documents to the Student Services Manager.

Paychecks
Students are encouraged to sign-up for direct deposit of their salary via AXESS. If you are receiving departmental funds, you will work as a Research and/or Teaching Assistant and you will receive paychecks on the 7th and the 22nd of the month, beginning on October 22. You will need sufficient funds to get by until you are paid. Your salary is taxable income, and applicable taxes and deductions will be withheld in accordance with the W-4 Tax form completed by each student on AXESS. If you do not receive a check on payday, see the Student Services Manager. If you received less money than anticipated, look at AXESS for your account and/or check with the Student Financial Services Office. Assistantships are for all four quarters, unless on paid summer internship. Academic pay periods are as follows:
- Autumn Quarter 10/1-12/31
- Winter Quarter 1/1-3/31
- Spring Quarter 4/1-6/30
- Summer Quarter 7/1-9/30

Stanford Graduate Fellowship (SGF)
If you were awarded a SGF, stipends disburse the first day of each quarter after you enroll in 8-10 units. SGFs are expected to use their funds within five years. Refer to the SGF website for guidelines.

Campus Health Service Fee
This fee covers many services provided by Vaden Health Center, including primary care medical visits, psychological evaluation and short-term therapy at Counseling and Psychological Services (CAPS), and access to health and wellness programs. The mandatory fee applies to all students enrolled on campus.

Cardinal Care and Health Insurance Subsidy
Cardinal Care is an annual enrollment insurance plan. The plan includes coverage in summer quarter (whether the student is enrolled that quarter or not). The annual cost of this coverage will be charged over three quarters of the academic year, i.e., in Autumn, Winter and Spring quarters. Enrollment in Cardinal Care is a once-a-year event. In the first quarter of each academic year, students decide whether or not to waive Cardinal Care coverage for that year. If you already have health insurance, you must request a waiver for the University insurance, otherwise you will be charged for Stanford’s health insurance. The Department subsidizes one-half of your health insurance, so you pay the other half of the health insurance fee.

Student Online Bills & Statements
All students have an online bill or statement viewable in AXESS. Those who are employed as research or teaching assistants also have an online pay statement, which is separate from the online bill. Log into AXESS to view billing history and balance due. The online bill lists financial aid (e.g., stipends and loans), expenses (e.g., housing and dining), and payments (e.g., credit card or check payments). The tuition allowance from assistantships, health subsidy, and student loans will appear as “Anticipated Aid” in the online statement at the start of each quarter. Once those funds are disbursed, they move from the Anticipated Aid to the Payments...
Salary from assistantships does not appear as Anticipated Aid. Students can pay their bills via ePay in AXESS. [http://co.stanford.edu/students/stanfordpay/](http://co.stanford.edu/students/stanfordpay/).

### Online Pay Statements
Salary appears in the online pay statement in AXESS only after the pay has been disbursed. You can verify that an assistantship is in the system by looking for tuition allowance in the Anticipated Aid section of the online bill. Assistantships will not appear in the online pay statement prior to the first pay date. You cannot view the online pay statement after you are no longer employed by the University (e.g., during quarters in which they are not working). Therefore, it is recommended that you print online statements if you anticipate needing a hardcopy. Otherwise, hardcopies can be ordered directly from the University Payroll Office for a charge.

### Payroll Deductions
You can apply for payroll deductions via AXESS to cover housing, dining services, and other costs. These expenses can be deducted directly from your net pay. Student Financial Services and Payroll, administer this program. Questions should be submitted online via the HELPSU system. The “Student Accounts” or “Payroll” category should be used when filing the help ticket. Or, Student Financial Services can be reached at the Student Services Center, or online: [http://studentaffairs.stanford.edu/sfs/bill/overviews-payroll-deduction](http://studentaffairs.stanford.edu/sfs/bill/overviews-payroll-deduction).

### Student Travel Reimbursements
Students traveling to official events (i.e. presenting a paper), and with PRIOR approval from their adviser may be reimbursed for normal expenses. **ALL ORIGINAL RECEIPTS MUST BE KEPT!**

### Research Assistantships
If you have accepted Department financial support, there are certain obligations associated with the award. Most assistantships are supported by government grants or industrial affiliates programs. You should meet with your adviser for your source of support during the first week of the academic year. You will be assigned a project and progress on the assignment will be noted. Continued financial support is contingent upon satisfactory progress of your assignments, coursework and research. Appointments are 20 hours per week of project/research work and the rest of the time should be devoted to course work.

### Teaching Assistantship
Working as a TA for two quarters is a requirement for all PhD students whether or not they are financially supported by the Department. New students are required to attend the SE3 Teaching Assistant Training in the beginning of their second year.

### Vacations/Time off
Our financial support is based on your work and the timely continuation of our funded research projects. You may be away from campus during breaks between academic quarters. Over the summer, students have options of working in industry, taking the summer off without pay, or working on research in the department. Discuss your plans with your adviser. It is important that your absences are coordinated with others in your group. If you will be away from campus for an entire quarter, you must inform your adviser before you leave and file a leave of absence form with the Student Services Manager.

### Additional Financial Support
Sometimes students receive an award or supplements to their funding either from an agency in their own country, from the University, or directly from the Department. We encourage students to apply for additional general funding or awards. The Geophysics Department’s policy is to allow students to keep up to $4,000 per year of such additional funding, per advisor discretion and approval. However, once a student obtains more than $4,000 in such funding, we reduce the amount of funding we provide to the level of our regular funding plus the $4,000. This gives you an incentive and allows you to have extra spending money, but also allows the department funding sources to stretch further. Please report outside awards to the Student Services Manager.

### McGee Grant & Shell Fund
Students can apply for the McGee Grant which can be used on research projects that include doing experimental work that has material costs involved. Application requires a proposal describing the research and a budget for materials. Students can also apply for the Shell travel fund which can be used towards travel expenses where students are presenting papers. Applications can be obtained from the Department Manager.
**Working Elsewhere - US Citizens**
The University has a strict policy about working while a registered student. Regardless whether supported by the Department or self-supported, students who are US citizens are not allowed to work off campus for more than eight hours a week.

**Working Elsewhere - International Students**
Foreign students supported by the Department are not allowed to work more than 20 hours per week. Self-supported students are expected to devote all of their time to their studies. International students cannot work at all in the US, except on summer internships. Rules established by the US government, and are part of your visa agreement. If you have questions, check with Bechtel International Center.
# Export Controls

## What You Need to Know Before Traveling Abroad

Stanford research policy requires all international shipments and hand-carried Stanford-owned or loaned property taken abroad to be documented for export controls. This includes laptops and smartphones. Stanford faculty must follow the steps below and be aware of export control regulations before traveling internationally. Temporary international travel and export control regulations are discussed at: http://doresearch.stanford.edu/research-scholarship/export-controls/temporary-exports.

## STEP 1: COMPLETE ANNUAL TMP CERTIFICATION

https://www.stanford.edu/group/export/forms/TMP-annual.html

   - If you determine you do not qualify, proceed to Step 2. If you do qualify:

b. Determine if your travel will allow you to meet the terms and conditions set forth on the Annual TMP Certification for items 1 through 5; by signing the form you become personally accountable for complying with those terms and conditions.
   - Once Steps 1a. and 1b. are met, complete and submit the Annual TMP Certification.
   - If all requirements are not met, proceed to Step 2.

## STEP 2: CONSULT THE EXPORT CONTROLS DECISION TREE

http://doresearch.stanford.edu/research-scholarship/export-controls/export-controls-decision-tree

If your travel will not allow you to meet the Annual TMP Certification's terms and conditions, consult the Stanford Export Controls Decision Tree to determine if your travel qualifies for "No License Required" (NLR) status.

## ALWAYS SAFEGUARD YOUR DATA

- When traveling internationally, the safeguards provided by Stanford’s computing environment are not available.
- Examples of data that should be left on campus or afforded exceptional protection include information that might be construed as sensitive by the host government, and any non-public data listed in the table on the Stanford Data Classification Guidelines page: http://www.stanford.edu/group/security/securecomputing/dataclass_chart.html

## COUNTRIES REQUIRING PRIOR APPROVAL

- Any plans to travel on behalf of Stanford to the following countries – Cuba, Iran, North Korea, North Sudan, and Syria – must be reviewed and approved by University Export Control Officer Steve Eisner in advance of travel.
- Upon pre-approval for travel to these countries, the Export Control Officer will issue an email to the traveller prior to departure.
- The traveller must submit the dated pre-departure approval email as a required document for travel expense reimbursement. Stanford will not reimburse travellers to these countries without the Export Control Officer’s written pre-approval.

## FOR MORE INFORMATION

- **DoResearch**: http://doresearch.stanford.edu/policies/research-policy-handbook/export-controls
- **Fingate Export Controls**: http://www.stanford.edu/group/fms/fingate/staff/travel/policy_notes/trade_sanctions.html
- **Additional Questions**: Contact Steve Eisner, University Export Control Officer at steve.eisner@stanford.edu or 650-724-7072.
## Export Controls FAQs
### What You Need to Know Before Traveling Abroad

<table>
<thead>
<tr>
<th>WHAT IF…</th>
<th>PROCEDURE TO FOLLOW</th>
</tr>
</thead>
</table>

b. If all requirements are met, complete and submit the Certification.  
c. If the requirements are not met, consult Stanford’s Export Controls Decision Tree: [http://export.stanford.edu/tree/index.html](http://export.stanford.edu/tree/index.html). |
| 2. …I have to ship or hand-carry Stanford or 3rd party equipment, components, materials, software on media, or other items to countries outside of the U.S.? | a. Review the Stanford Export Controls Decision Tree at [http://export.stanford.edu/tree/index.html](http://export.stanford.edu/tree/index.html) to determine if your item is on an export controls list.  
b. Contact Steve Eisner, Stanford’s Export Control Officer at steve.eisner@stanford.edu or 650-724-7072 if your item is on a list or for assistance.  
c. Screen your recipient and your recipient’s organization (when applicable) against U.S. export control Restricted Party Lists: [http://export.stanford.edu/rps](http://export.stanford.edu/rps)  
b. If the Export Control Officer approves your receipt of Export Controlled Information (ECI), you will need to document your agreement to protect the ECI for export control purposes by submitting Stanford’s Certification on the Handling and Use of Export Controlled Information: [https://www.stanford.edu/group/export/forms/nda.html](https://www.stanford.edu/group/export/forms/nda.html).  
| 5. …I have to travel to Cuba, Iran, Syria, North Sudan or North Korea on Stanford University business? | a. Contact Stanford’s Export Control Officer Steve Eisner at steve.eisner@stanford.edu or 650-724-7072 and he’ll help determine if you can travel to these countries without an export license. Cuba, Iran, Syria, North Sudan and North Korea are subject to U.S. trade sanctions. Travel to and transactions with these countries are tightly regulated. |
b. A PI/faculty supervisor (research positions) or Senior HRM (all other positions) will need to complete ORA-1130 as a one-time requirement.  
c. PI/faculty supervisor or Senior HRM will also need to submit the required Deemed Export Questionnaire found within Bechtel’s H1-B Workflow. |
