Subject: Stanford Earth Course Design and Teaching Support this Week

To: <[se3-faculty-regular@lists.stanford.edu](mailto:se3-faculty-regular@lists.stanford.edu)>, <[se3-faculty-affiliated@lists.stanford.edu](mailto:se3-faculty-affiliated@lists.stanford.edu)>

Dear SE3 faculty and other instructors,

We are writing to remind you of support this week while you are working to take spring quarter courses online.

- If you would like us to help advertise a spring course, we are building a webpage for that purpose. We can help promote your course flyers, your syllabus, and even a short info video if you would like. Please send materials to [Audrey Yau](#) as soon as you have them. The website will go live on 3/25 and we can update it along the way.
- There are daily workshops on Zoom, Panopto, Leading Online Discussions, Building Community Online, etc. at [TeachAnywhere event page](#)
- [Margot Gerritsen](#) and [Robyn Dunbar](#) are available for 1:1 discussions about your course and can help connect you to relevant resources
- [Ryan Petterson](#) is available for thinking about field experiences, alternatives, etc.
- [John Freshwaters](#) can advise about platforms and other tools you might be considering or in need of.
- Finally, the Center for Teaching and Learning is hosting daily [live office hours](#) for all your questions and their [Spring TA Orientation](#) on April 3<sup>rd</sup> is devoted to helping your TAs navigate online teaching!

Please reach out to any of us where we can be helpful!

We will continue to update these and other teaching resources on our [Stanford Earth COVID-19 Info](#) page, so you can always go straight there instead of searching old emails.

On behalf of the Educational Affairs team in the Dean's Office, we thank you for all you are doing to launch a great spring quarter under unusual conditions!

Cheers,

Audrey, John, Margot, Robyn, Ryan
