

# Undergraduate Research Advisor & Topic

All BS students must complete 5 units of independent research or an approved summer internship, and write a senior thesis or honors thesis on that topic under the guidance of a faculty research advisor (typically in Geophysics). Suitable advisors and topics are typically identified while taking Geophys 201.

**Student Name:** \_\_\_\_\_

**Name of Research Advisor:** \_\_\_\_\_

**Proposed Topic of Research (can be preliminary):**

\_\_\_\_\_

**Proposed Quarter for Registration in Geophys 196, or timing and location of proposed Summer internship (i.e. when will you do the research?):**

\_\_\_\_\_

**Funding or other support required (if any):** \_\_\_\_\_

**Proposed Quarter for Registration in Geophys 197 or 198 (Senior Thesis or Honors Thesis), typically Winter or Spring Senior Year (i.e. when will you write your thesis?):**
