In this course, current topics of global health will be discussed while focusing on an equity lens. Topics include decolonizing global health, climate and vulnerable populations, the poverty trap, inequities in reproductive rights, inequities for child health as well as global gender and racial disparities during the COVID-19 pandemic.

Sessions will include lectures from experts in the field, student presentations and class discussions. Requirements for the course include attendance and participation in class discussions, final paper and short quizzes. This course will be taught by Dean of Global Health, Michele Barry and Dr. Geoffrey Tabin, Professor of Ophthalmology and Global Medicine and co-founder of the Himalayan Cataract Project.

Michele Barry MD
Director of the Center for Innovation in Global Health, Senior Associate Dean for Global Health, Stanford

Geoffrey Tabin MD
Professor of Ophthalmology and Global Medicine, Co-Founder of the Himalayan Cataract Project

Course enrollment is open to graduate students and undergraduate students (2-3 Units). An application is required for acceptance into the course: https://forms.gle/kQaA4KKJBoHXtae9 Questions can be directed to course manager, Olivia Paige (opaige@stanford.edu).
