

Fall Quarter
**ERE112/GP112: Exploring
Geosciences with MATLAB**

Instructor: Tapan Mukerji
TA: Noah Dewar

Wed/Fri 2:30-3:30 p

Zoom Remote, 1-3 units

Data analysis, visualization, signal and image processing, optimization, Monte Carlo simulation, Machine Learning, and more.

"Great course, it was exactly what a Matlab noob like me needed!! really enjoyed it!"
- Student comment

"To this day, I look back on that course as being one of the best organized, most useful classes I took while there..."

-Student comment
